Dura-Lam by STEVENSWOOD®

- + Laminated plywood core for multiple cabinet uses.
- + Tremendous savings when compared to the cost of HPL / Plywood panels.
- + Lightweight Italian Garnica Plywood core available with our high-performance decors.

Forward thinking innovation combined with state-of-the-art lamination provides a selection of our StevensWood designs to be laminated to PLYWOOD CORE!

Laminating our high-performance decors to a plywood substrate provides a surface much more economical than using HPL.

Offered in
Lightweight Italian
Garnica (top) and
Birch (bottom)
Plywood cores.
